B.SC HOME SCIENCE – PART III

SCHEME OF EXAMINATION

The number of papers and the maximum marks for each paper together with the maximum marks required for a pass course are shown in the scheme of examination against each subject separately. It will be necessary for a candidate to pass in theory as well as practical part of a subject paper, wherever prescribed, separately. Classification of successful candidates shall be as follows:

First Division 60% of the aggregate marks prescribed in honors and subsidiary

subjects of Pt.I, Pt.II and Pt.III examination taken together.

Second Division 48% of the aggregate marks prescribed in honors and subsidiary

subjects of Pt.I, Pt.II and Pt.III examination taken together.

The theory examination paper will consist of three parts:

- 1. Part I will comprise of 10 very short answer questions of 2 marks each. The answer to each question must be within the limit of 20-40 words.
- 2. Part II will comprise of 5 short answer questions of 4 marks each. The answer to each question must be within the limit of 50-60 words.
- 3. Part III will comprise of 6 long answer questions (essay type) of 20 marks each with internal choice in each question. Candidate will need to attempt only 3 questions.

B.Sc. Home Science (Part III)

TEXTILE SCIENCE (THEORY XI)

Max Marks: - 100 marks

Teaching workload:4 hours/week

Total teaching workload:96 hours/year

Objectives:

- 1. To teach the students about different fibres, their manufacturing and properties\
- 2. To acquaint them to different construction processes to make fabrics.
- 3. To teach different finishes and application of colour and design in textiles.

UNIT-I		Hours
1.	Textiles fibres and their properties	
}	Classification of fibres	5
	 Primary and secondary properties of textiles fibres. 	
2.	Manufacturing process, properties and use of following fibres – Cotton, Jute,	15
	Silk, Wool, Rayon, Polyester, Polyamide.	
3.	Yarn construction	
	 Basic principles of yarn making – Mechanical spinning (cotton spinning), Chemical spinning – Wet, Dry, and Melt 	10
	 Types of yarns – Simple, Novelty and Textured yarns. 	
	Yarn Twist and Yarn Numbering system	
UNIT-II		
4.	Fabric Construction Methods	15
	 Weaving, Knitting, Braiding, Lacing and Netting 	
	 Weaving – Types of hand looms, parts of a loom, stages in weaving, 	
,	process	
	 Classification and construction of basic weaves: plain, twill & satin 	
	 Fabrics made from fibres – Felting and Bonding 	
5.	Finishing	15
	 Definition and importance of finishing 	
	 Classification of finishes 	
	 Preparatory Process – Resizing, Scouring and Bleaching 	
	Mechanical finishes – Sizing, Singeing, Mercerization, Napping, Signature of Color of Sizing, Singeing, Mercerization, Napping, Output Description of Sizing Sizi	
	Embossing and Calendaring.	.
	• Functional finishes – Wrinkle resistant, Water- resistant and repellent,	
	Flame Retardant, Soil Repellent, Mothproof and Anti static.	8
6.	Technical Textiles	
	Non Woven'sMeditech	
	Agrotech	
	- Agrotech	L

4

	Geotech	
UNIT-	III	
6.	Dyeing	10
	 Classification and properties of dyes: Natural and Synthetic dyes 	
	 Stages of dyeing – fibber dyeing, yarn dyeing, fabric dyeing and garment dyeing 	
7.	Printing	10
/.	 Methods of Printing – Block, Screen, Stencil, Roller and Rotary 	10
	Styles of Printing – Direct, Discharge and Resist	
8.	Standards- Textile performance legislation act	8
	Bureau of Indian Standards	
	Care labelling Act	
	Eco- labelling	
	Fibre symbols: cotton, wool, silk and handloom

TEXTILE SCIENCE (PRACTICAL- XI)

Max Marks: - 50 marks

Teaching workload: one practical/week (2 hours/practical)

Total teaching workload: 24 practicals/batch

Objectives:

- 1. To coach the students to learn different physical properties of fibre, yarn and fabric.
- 2. To instruct different techniques of dyeing and printing
- 3. To familiarize them with different fabrics available in the market.

Content		Practical
1.	Fibre Study and identification - Visual, Microscopic, Burning, Chemical solubility	4
2.	Yarm	
	Yarn Count	}
	Yarn Twist	2
3.	Fabric .	
	Thread Count and Balance	8
	Crease Recovery	
	Dimensional stability	
	Colour fastness	
4.	Identification of basic weaves and their design interpretation on graph	
5.	Dyeing	

1 Jun 20 10

	Tie & dye with different techniques	2
6.	Printing	
	Block Printing – Border, Corner and all over	3
	Screen printing	4
7.	Preparation of scrap book showing	4
	• Fibers	
	• Yarns	1
	Fabric construction methods	
	Technical textiles	
	Dyed & printed textiles	

Examination scheme

- 1. Major Problem 25 Marks (Testing)
- 2. Minor Problem 15 Marks (Identification based on preparation of scrap book, Dyeing& Printing)
- 3. Internal 10 Marks

PROGRAMME MANAGEMENT (PAPER XII)

Max Marks: - 100 marks

Teaching workload: 4 hours/week

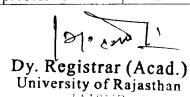

Total teaching workload: 96 hours/year

Objectives:

1. To develop skills in community organization.

- 2. To appreciate collective action of weaker sections of people for their own development.
- 3. To understand the community dynamics and its influence on different sections of the community.
- 4. To study the ideology of organizing people in development.
- 5. To understand the pattern of leadership in the community traditional and emerging.
- 6. To understand the process of organizing people for their own development.
- 7. To understand and design programmes scientifically, at village level/urban slum.
- 8. To impart skills to implement, monitor and evaluate programmes.

UNIT- I		Hours
1.	Community concept and characteristics of a community, structure and	. 10
2.	organization of different types of communities, Tribal, rural and urban slums. Community organization: concept, meaning and scope, principles, identifying the role of individuals in the community.	10
3.	Community organiser: role and qualities of a community organiser.	4
4.	Planned social change- nature, concept.	3
UNIT- II		
5.	Group dynamics: concept, meaning, characteristics, types and functions of group, stages and process of group formation, group norms and structure.	10
6.	Components of group dynamics: cooperation, competitions, communication, group pressure, group cohesiveness, managing group team building 13	13
7.	Leadership- meaning, leadership patterns, functions, their identification and	8
	training.	10
	Training - need assessment, types and methods of training.	
UNIT-II	T	
8.	Programme planning- objectives, principles and scope; the process of	10

	programme planning.	
9.	Designing a village level extension programme.	3
10.	Developing programme indicators.	3
11.	Programme implementation.	5
12.	Appraisal, monitoring and evaluation.	3
13.	Report writing	4

PROGRAMME MANAGEMENT (PRACTICAL - XII)

Max Marks: - 50 marks

Teaching workload: one practical/week (2 hours/practical)

Total teaching workload: 24 practicals/batch

Objectives:

1. To help the students to gain work experience at community level

2. To develop acquaintance with the social - cultural patterns of the community

Contents:	Practical
1. Select a community for implementing the extension programme	1
2. Establishing rapport	4
Identification of the background information of the community	2
4. Identification of community needs using participatory methods- a) Social mapping	3
b)Transect walk c)Focus group discussion	
5. Planning a one day (two hours) programme on one of the selected need	is 2
6. Preparation and procurements of teaching aids	5
7.	4
3. Implementation	1
Identification of changed indicators to assess the impact	2
Self evaluation	

1. Major (planning one of the programmes)

20 marks

Dy. Registrar (Acad.) University of Rajasthan

2.	Minor (Preparation of teaching aid)	15 marks	-
3.	Viva	5 marks	
4.	Internal assessment	10 marks	

MARRIAGE, FAMILY AND HUMAN RIGHTS (THEORY XIII)

Max Marks: - 100 marks

Teaching workload:4 hours/week

Total teaching workload:96 hours/year

Objectives:

- 1. To acquaint the students to develop an understanding of marriage and its significance in society.
- 2. To help students to learn regarding various aspects of family life and recent changes in family.
- 3. To highlight the role of good parenting in the child's life.
- 4. To learn about early childhood care and development.
- 5. To develop sound perspective on the study of individuals with special needs.

UNIT I		Hours
1.	Goals, Significance and Functions of Marriage. Alternatives of marriage:	10
	Being Single, Co-living and Homosexuality.	
2.	Problems and Adjustments in Marriage: Divorce, Widowhood, and	12
2	Remarriage. Adoption Policies for Parents and Single Adults.	
3.	Responsible Parenthood: Parenting Styles and Parenting together; Types of	10
	family and Changing roles of family members.	10
UNIT II		
4.	Significance and Objectives of Early Childhood Care and Development	8
	including psychosocial care and its impact on health with focus on brain	
	development.	
-	Definition meaning and classification of children with special needs.	14
5.	Sensory deficit and physical disabilities: definitions, identification,	
	classification, causes of-	
	(a) Auditory	
	(b) Visual	
	(c) Communication	
	(d) Orthopaedic deficits	
	National policies for these children (PWDs)	
5.	Emotional disturbance: common emotional behaviour problems of	10
	children, their definitions, cause and management of-	
	(a) Bed wetting	
	(b) Thumb sucking	
	(c) Aggression	
	(d) Nail biting	
	(e) PICA	
	(f) TICS	
III TINU		
' .	Introduction to child rights: meaning laws and policies related to child	10
	survival, protection, participation and education, welfare programs,	

	working for children.	
8.	Exploitation of children: trafficking, dysfunctional families, children in	10
	conflict with law, juvenile justice Act.	
	Human Rights: Meaning, laws and policies related to women and adults.	
ļ	Hindu Marriage Act	
	Dowry Prohibition Act	12
9.	Other Laws related to women and adults. Welfare programmes working for	12
1	children, women and adults.

MARRIAGE, FAMILY AND HUMAN RIGHTS(PRACTICAL - XIII)

Max Marks: - 50 marks

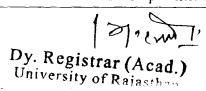

Teaching workload: one practical/week (2 hours/practical)

Total teaching workload: 24 practical/batch

Objectives:

- 1. To develop understanding on issues related to marriage and family.
- 2. Understanding the working of welfare agencies.
- 3. Awareness regarding legal issues for women and children.

Conten	ts:	
1.	Planning and implementation of intervention programmes for children in	3
2.	impoverished situations. Case profile of one family on parent-child relationship with special focus on	4
3.	fatherhood. Prepare a report. Comparative analysis of child rearing practices in different communities and	3
4.	socio-economic groups. Developing few case profiles of working women, with focus on roles, responsibilities, job stress and leisure time activities.	4
5.	Working with adolescents on critical issues related to their developments.	3

Max Marks: - 100 marks

Teaching workload: 4 hours/week Total teaching workload: 96 hours/year

Objectives:

This course will enable the students to

- 1. Understand the concept of an adequate diet and the importance of meal planning.
- 2. Know the factors affecting nutrient needs during the life cycle and the RDA for various age groups.
- 3. Be familiar with the common nutritional problems of the community, their causes, symptoms, treatment and prevention.
- 4. To understand the importance of early and exclusive breast feeding upto 6 months and timely complementary feeding in reducing infant mortality and under 5 mortality.
- 5. Gain knowledge about die@ary management of diseases.
- 6. Study the schemes, national and international programmes and policies to combat nutritional problems of the community.

UNI	T-I		
Normal Nutrition		Hours	
1.	Relationship between food, nutrition, health and diseases	1	
2.	Energy metabolism — Units, bomb calorimeter, Fuel value of food, physiological fuel value of foods, direct and indirect calorimetry, factors influencing total energy requirement(muscular activity, mental effort, calorigenic effect of food, maintenance of body temperature and growth). Basal Metabolic Rate, factors affecting Basal Metabolic Rate, Recommended Dietary	6	
3.	Allowances for all age groups. Meal Planning – Importance and goals of meal planning, factors affecting meal planning-nutritional, socio-cultural, religious, geographic, economic, availability of time and material resources use of convenience foods in meal planning.	3	
4.	Factors influencing food intake: Physiologic factors- Hunger, appetite, hedonic factors; environmental and behavioural factors-culture, economic, social, religious, age and sex, emotional factors.	3	
5.	Nutrition through life cycle • Infants-growth and development, nutritional requirements, colostrum feeding, comparison of human and cow's milk, complementary foods – commercial and home prepared. Infant feeding practices IMS Act,	4

FAMILY AND COMMUNITY NUTRITION (PRACTICAL-XIV)

Max Marks: - 50 marks

Teaching workload: one practical/week (2 hours/practical)

Total teaching workload: 24 practicals/batch

Objectives:

This course will enable the students to

- 1. Plan and prepare nutritionally adequate diets in relation to age, activity levels and physiological state.
- 2. Make the therapeutic modifications of normal diet for common diseases conditions.
- 3. Assess the nutritional status of individuals using dietary survey and Anthropometry.

Conte	ents:	Practical
1.	Exchange lists and use of Exchange Lists	2
	Standardization of recipes for use in meal planning	1
2.	Planning of diet through the life cycle.	1
3.	School Child (Packed lunch)	8
	Adolescent girl/boy	}
	Adult man/woman	-
[Pregnant Woman	
[Lactating Woman	}
	• Elderly	}
4.	Development of complementary foods for infants (6 months to 1 year)	1
5.	Planning diets for the following diseases:	8
	Diarrhea	
	constipation	
	Peptic Ulcer	
	Infective hepatitis	i
	Typhoid fever	
i	Obesity	ļ
	NIDDM	
	Hypertension
