

A two day Workshop on “Instrumentation for Academia-Industry Interface”

This workshop is ideal for those who wish to have hands on experience in utilizing AAS and HPTLC instruments towards scientific and industrial research work. Scientists, new entry level startups, PI's, students etc. will be benefitted with a two-level interaction with the industrial experts and participants in the live demonstration. Working knowledge about the theory and practical aspects will help them to apply these analytical techniques in their research applications.

This workshop would focus on:

- Knowledge transfer & familiarization about AAS & HPTLC techniques.
- Know how of linking research with products.
- Exclusive training with extensive instrumentation guidance.

Target Audience

This workshop is open to Academicians/ Technologists / Researchers/ Students/ Industrial personnel etc., who wish to improve their analytical skills towards AAS & HPTLC techniques.

Venue: Ayushraj Enterprises Pvt. Ltd. ,
Jaipur
